*These numbers are approximate and represent even weight distribution along the floor and should not be localized in one central spot

*Total gross weight is dependent on chosen upgrades, design and accessories. Custom configurations and accessories reflect in variations and additions to weight, and will be discussed on a case by case basis.

RENDERINGS

Our designers are capable of providing 3D layouts and custom configurations for specific programs, activations, or brands. This can help visualize the space or concept and ensure all features and accessories fit together as envisioned.

Graphic design is also available in our 3M Silver Certified print department.

ADVANTAGES

Guerrilla Cubes are purpose-built trailers designed for more effective interactive engagements. Its versatile platform with premium finishes and construction yields optimum branding opportunities and maximizes activation possibilities.

Size

- Ample interior space for activations
